

## Procedures for the examination of the inland water network

If you wish to check the validity of the water network in your home or to detect an internal leak that Miyahuna provides this service for you, just do the following:

### Required documents:

- Pre-subscription water bill.

### Place of service:

- Customer service offices.

### Fees:

10 JD when you apply

### Procedures:

- When you attend the service office, the employee will export a statement of account for your subscription and calculate all the amounts involved in the subscription until the last invoice issued.
- When you pay the required amounts, the employee will prepare the transaction form for you to sign.
- A company employee will visit you during the water cycle to check with the leak detection device.
